Subject: Wilcox Residential Letter Figures and Updated Results Tables

Hi Mark,

Per our conversation yesterday morning, please see the attached figures that were requested to show the grid locations that were sampled on each property. Also attached is the updated summary data tables for your review. The figures have been placed in a .ZIP file. Please rename the extension from .piz to .zip to access the files.

Notes about the updated data tables

- Updated RSLs to June 2015 and RMLs to Jan 2015
- Removed Total PCB Analyte
- Moved analytes from the pesticides category to SVOA category

9750945

At this moment we are going to put a stop to work on the report while we let you, Katrina, and the risk assessors discuss how we would like to continue with the representation of data. Once you have come to a conclusion on how you would like this data to be represented within the report, we will continue with that section and begin to move forward with the final report delivery for your review. So please keep me informed as to what decisions are made and how you would like to report our findings.

Please let us know if there is anything else that you are needing at this time to help with the letters or if there is anything else that you might need our assistance with.

Patrick Bond
